

## MY PITCHER COLLECTION

Pitchers are so fascinating because there are so many different shapes and sizes. Everywhere you go you can see one that is unique.

My collection includes a few heirlooms and gifts from friends and relatives. When on trips Mother has encouraged us to choose an item for our collection as a souvenir of the places we visit on our trips.

I am very proud of the lovely hand painted ones but the novelty pitchers are so clever. I have some cow pitchers. One is an elephant, the trunk of which makes the spout and the tail a loop for a handle. Another is a big fat monk with a monkey on his back. The tail of the monkey makes a loop for a handle. Then I have a set of an old Irish Grandpa and Grandma pitchers.

If I were to choose a category, I think it would be the novelty or unusual ones. They are about all that a teen-ager can afford. **Bonnie Malone.**
