and Hemispheres -

Birdbaths - Brass Paul Revere Bowls - Standard and  
Custom Metal Spinning Products

### **ABOUT - US**

**MADE IN AMERICA BY  
NEW ENGLAND COPPERWORKS**

Welcome to New England Copperworks

Dedicated to the traditional art and craft of fine metalworking, New England Copperworks combines quality craftsmanship with elegant, classic design to produce the finest copper ornamentals available.

True to our families' traditional metal crafting heritage that dates back to the 1800s, our expert craftsmen hand spin heavy-gauge copper to create exquisite light fixtures, finials, birdbaths, and ornamentals. The result is a seamless construction that is not only beautiful, but will last for generations, withstanding even the harshest New England weather. In fact, over time, exposure to the elements transforms the warm glow of copper to a rich and lustrous patina.

In addition to creating distinctive and versatile designs, we can repair or replicate pieces that have been damaged, and we welcome custom requests.

Please don't hesitate to contact us with special requests or questions you have about any item in this catalog. We not only uphold traditional metalworking techniques, we also believe in providing personal attention and unsurpassed service.

Bill and Susanne Juare

**Our Lanterns are approved  
By the Newport, RI  
Historical Society**

### A Testimonial

"Thank you for the very professional craftsmanship. Excellent work!"

Brian Pelletier, Proprietor Newport Gaslight, Rhode Island

### Information About Our Products and Ordering

**Material** – We use 110 Revere Copper on our products however; we also work with Brass, Aluminum, and Pewter. For better strength on our hanging Onion lanterns we use copper plated brass chain.

**Finishes** – We offer standard brushed natural finish, high polish, and a weathered finish. The natural copper color will transform to a beautiful patina, actually protecting the copper as it ages. Lacquer finish can be applied depending on the item.

**Quality Workmanship** - All our products are fabricated to the highest standards by our skilled craftsman

We use heavy gauge copper, creating each piece using various metal-smithing techniques including metal spinning for seamless strength and beauty to our exacting level of quality.

**Electrical Components** - Lanterns are wired to use standard bulbs, we used porcelain Leviton sockets.

All electrical components are UL approved

**Custom Work Available** - Any standard item can be modified. We offer reproduction and restoration of various items or creating a whole new piece. We will work closely with you to ensure your custom item meets your specific needs.

**Payment and Shipping Options** - We accept Master Card and Visa. You can order through our secured online shopping cart or call to place your order directly with us over the phone. Shipping charges are not available at checkout; after your order has been placed someone will contact you with shipping costs and estimated delivery time. All orders are plus shipping, and insurance cost. Shipments to Rhode Island residents will also include state sales tax. We typically ship UPS ground, however if a speedier delivery is needed we will contact you on the various options.

**Returns and Exchanges** - All our products are custom made to order. All copper ball, custom work, finial and roof cap sales are final unless prior arrangements have been made. Lanterns are subject to a 20% return fee plus all shipping charges. Lanterns must be in new condition and in their original packaging.

We strive to meet our customers' needs therefore please refer to our measurement chart of the onion lanterns before placing your order to ensure you are ordering the correct size. We will be happy to work with you in determining what best fits your needs. Feel free to contact us with any concerns or questions.
